WORK EXPERIENCE ~3 YEARS

Copods

Product Designer Mar 2026 - Present

- **Designing end-to-end interfaces for complex enterprise and SaaS products** — translating business requirements from multiple stakeholders into clear, usable flows.
- **Building and maintaining design systems across client brands** — balancing brand consistency with reusable component libraries built for engineering handoff.
- Designing internal AI-assisted workflows to speed up early-stage concepting and asset creation across varied client projects.

CA Monk

Product Designer Dec 2024 - Feb 2026 (1.3 year)

- **Built the Monk Design System** — atomic components with Auto Layout and Figma variables mapped to CSS tokens. Eliminated design-dev drift and cut design-to-ship time by ~25%.
- **Redesigned the first-time user experience** using heatmaps, session recordings, and interviews. Reduced sign-up drop-offs and lifted new user profile completion by ~28%.
- **Reworked the AI Resume Builder** from a rigid CA-specific form into a modular, generalized flow — cut form abandonment by ~18% and creation-to-export time by ~33%.
- **Designed the Mentorship Platform (0→1)** — transitioned from a WordPress plugin to a custom React product. Led competitive benchmarking and persona development, resulting in fewer support tickets and higher session bookings.
- Contributed to scaling the platform to 60k+ active users through continuous UX audits, analytics review, and rapid iteration with engineering.

Lakhani Financial Services

Visual Designer May 2023 - Aug 2024 (1.3 year)

- Translated complex financial models into pitch decks for founders — led discovery sessions with 15 founders, helping 3 startups secure funding.
- Designed performance marketing campaigns across Google and Meta — achieved a 2.6% CTR, outperforming industry benchmarks through visual hierarchy testing.

EDUCATION

B.Tech in Computer Science & Engineering (Hons)

2020-2024 | 7.93 GPA

- *Majors in AI/ML*
- *AIIESEC Marketing Head (Led a team of 10)*
- *Smart India Hackathon (Top 5 Finalist)*

COURSEWORK

Google UX Certification

Introduction to Web Accessibility by W3C
(Audit mode)

SKILLS

Product Design:

Interaction Design
Information Architecture
Wireframing & Prototyping
Design Systems

Visual:

Visual Design
Brand Identity
Data Visualization

Research & Strategy:

User Research
Usability Testing
Behavioral Analytics
Competitive Benchmarking

Technical:

React (Basics)
Figma (Auto-Layout, Variables, Dev Mode)
Design-to-Dev Handoff

TOOLS

Figma • Adobe CC • Linear
• Storybook • Generative AI Tools
